My teammates and I have a rare opportunity to pursue our dreams and strive to be better. Our aspirations are only possible because of the essential funding skiers and fans like you provide us!

Knowing I’m supported gives me a strong sense of purpose. I can push myself and compete for Team USA knowing skiers like you stand with me—words can’t describe this incredible privilege. I dedicate my life to being the very best I can be.

Many think skiing is only a sport in the winter months, but we pour our heart and soul into it all year long, training as hard as we can on and off the snow.

Will you consider scanning this QR code to support us as we prepare for the Olympic Winter Games in February? It took a lot of support for me to get here. Every single donation matters.

From one skier to another,

CHAPTER 1
GETTING STARTED
U.S. Ski & Snowboard is the Olympic national governing body for ski and snowboard sports in the USA, providing leadership and direction for tens of thousands of young skiers and snowboarders, encouraging and supporting them in achieving excellence. By empowering national teams, clubs, coaches, parents, officials, volunteers and fans, U.S. Ski & Snowboard is committed to the progression of its sports, athlete success and the value of team.

Thank you for your participation in U.S. Ski & Snowboard programs. These programs provide opportunities for athletes to develop skiing or snowboarding skills in a competitive and educational environment, from grassroots club programs up through national teams and the Olympics. This competition guide is a roadmap for various programs, rules and rankings.

U.S. Ski & Snowboard supports athletic programs in alpine skiing, snowboarding, cross country, ski jumping, nordic combined, freestyle and freeskiing. U.S. Ski & Snowboard clubs include approximately 370 professional coaching outlets for athletes and logistical support for competitions. These clubs, with both professional staff and volunteers comprised of nearly 36,000 U.S. Ski & Snowboard members, are the foundation of U.S. Ski & Snowboard, supporting individual athletes and managing most of the organization’s domestic competitions. The 2020-21 season challenged our resort partners, clubs, officials and volunteers due to the COVID Pandemic. However, more than 2,700 domestic competitions with more than 122,000 athlete starts were held across the U.S. thanks to the incredible efforts by everyone involved to provide as many athletic opportunities as possible, while adhering to state and local COVID policies and regulations.

Services provided by U.S. Ski & Snowboard are based around the three “R’s”: rules, races and rankings. Rules are established to ensure a consistent and fair playing field for all athletes. Races, or competitions, are the backbone of the U.S. Ski & Snowboard’s programs, providing competitive opportunities for athletes. Rankings are a means of evaluating performance in competitions to determine advancement along the athlete development pipeline, or to assist in determining start positions in specific competitions.

U.S. Ski & Snowboard provides educational resources to key constituent groups through the Center of Excellence, the organization’s national training and education facility. Education is provided to athletes, parents, officials, coaches and clubs in areas such as sport technique, fitness and exercise, sport science and sports medicine. U.S. Ski & Snowboard also partners with both the USOPC and U.S. Center for SafeSport on education related to athlete safety.

U.S. Ski & Snowboard regions and divisions are volunteer-run programs which implement programs within small, multi-state geographic areas, including scheduling of divisional competitions, selection of divisional teams and training of competition officials.

Athletic Advancement

Now that you are a U.S. Ski & Snowboard member, you have access to compete in sports both in your home area, regionally, and nationally. The following are steps you can take to make the most out of your competitive experience.

Join a Club - Linking up with a club will allow you access to the best professional coaching and logistical support. A complete club directory is available at usskiandsnowboard.org/public-tools.

Compete - Pick the proper competition programs for your age and ability. Contact the event organizer, or your local club for entry information. U.S. Ski & Snowboard programs offer both introductory non-scored events for youth athletes to promote skill development, fun, and scored competitions to improve ranking.

Ranking - Compete in U.S. Ski & Snowboard scored competitions to gain a ranking, which will be used for advancement up the athlete development pipeline. You can monitor your ranking at usskiandsnowboard.org/public-tools/ranking.

FIS Competition - As you advance up the pipeline with your U.S. Ski & Snowboard ranking, you may be eligible for ranking on the International Ski Federation (FIS) ranking list. Check
with your club coach or divisional contact for more information. FIS registration is managed through U.S. Ski & Snowboard. You can monitor your FIS ranking and register for some USA FIS events at usskiandsnowboard.org.

**Team Selection** - As you continue to advance, your ranking may qualify you for a regional or divisional team. This includes the Junior Championships, U.S. Championships and all the way up to the U.S. Ski & Snowboard Teams.

Each U.S. Ski & Snowboard sport has a specific development pipeline (usskiandsnowboard.org/sport-programs/pipeline) with defined action tips designed to educate athletes in every age group as they progress in their sport.

**Where to Find More Information**

As you continue competitive skiing or snowboarding, you might have questions along the way. The following are helpful resources to guide you on your path to success.

There you will find contact information, criteria and advancement protocol on your sport as well as the latest in national news from your sport. You can also search the Knowledge Base at my.usskiandsnowboard.org/membership/start for answers to many of our member’s most common questions.

**Competition Guide** - This handbook is a guide for athletes, parents, coaches and officials that provides a roadmap to U.S. Ski & Snowboard programs. Here you can find information on rules and rankings for your sport.

**Local Club** - Clubs are the heart of the sport. These organizations have the background and knowledge to help answer most of your questions. Check your local club for information on schedules and qualifying procedures within your division.

**Regional/Divisional Contact** - Each region and division for your sport has a contact person who can help you answer questions. Contact information appears in the front of this competition guide and at usskiandsnowboard.org.

ATHLETE SAFETY

U.S. Ski & Snowboard is committed to athlete health, welfare, and safety, and adheres to the requirements of the U.S. Olympic & Paralympic Committee (USOPC) and the U.S. Center for SafeSport in their efforts to promote a safe and secure environment for athletes.

SafeSport & Athlete Safety requirements, including the Minor Athlete Abuse Prevention Policy (MAAPP), apply from the grassroots level with U.S. Ski & Snowboard member clubs, and extend to all areas of the organization, including the Center of Excellence.

All employees of U.S. Ski & Snowboard, interns, volunteers, and contractors who have access to the Center of Excellence, or who have regular contact or are in a position of authority over athletes, and those who have access to confidential U.S. Ski & Snowboard information related to the organization or athletes, must complete SafeSport training and background screening before their first day of employment, interning, volunteering, or beginning contract work.

U.S. Ski & Snowboard member clubs are also required to implement SafeSport training
and background screening as well as the MAAPP for all those who work at or with U.S. Ski & Snowboard, and at all U.S. Ski & Snowboard- or FIS- sanctioned events in the United States. These mandatory requirements include:

- Criminal background screening once every two seasons for all employees, coaches, officials, board members, interns, contractors, and volunteers who are in regular contact with athletes, or in positions of authority over athletes
- Core Center for SafeSport Training
- Following the completion of the Core Center for SafeSport training, a refresher course is required every season
- The adoption of U.S. Ski & Snowboard’s MAAPP, to limit, as much as possible, one-on-one interactions with athletes at all times
- Implementation and enforcement of policies, and preparation for and quick response to random audits for compliance by the U.S. Center for SafeSport
- Completion of the introduction to avalanche course on U.S. Ski & Snowboard’s membership platform
- Fast Start Coaching Course: Now required for Level 100 certification

These policies apply to all levels of U.S. Ski & Snowboard’s member programs. More details regarding SafeSport and Athlete Safety are available on the U.S. Ski & Snowboard website at usskiandsnowboard.org/safesport-athlete-safety.

**PARENTS**

Your son or daughter is on their way to growing their career in skiing or snowboarding. Supporting them in their endeavors is the number one way to help them achieve success. There are also other ways to participate along the way to enhance the experience of competitive skiing and snowboarding.

**Become a volunteer** - The club system exists because of the help and dedication of volunteers, including parents of competitive athletes. A great way to be a part of the team is to become an official. Parents may attend officials clinics and work out of town competitions so that they will be better able to help with competitions at their own venues. Another way to be involved is to serve on steering committees and competition committees for a sport. Contact your sport staff for more information.

**Education** - U.S. Ski & Snowboard provides a variety of educational opportunities for parents. Through usskiandsnowboard.org, local clubs and U.S. Ski & Snowboard produced educational resources, parents can gather information to help support their child in their quest towards victory. The U.S. Center for SafeSport also offers education and training resources for SafeSport and the MAAPP directed at minors and available on the Center’s website

**Stay involved in your child’s club** - Ask questions to club leaders, look at annual reports and attend orientation if offered. These activities will help you better understand your child’s club and the development pipeline.
U.S. Ski & Snowboard requires Members to have valid and sufficient primary medical / accident insurance coverage and to accept full responsibility for understanding the provisions of such coverage as a condition of becoming a member and participating in official U.S. Ski & Snowboard training and competition. Such primary coverage must be in effect for the entire term of the membership year in order for the member to have coverage under U.S. Ski & Snowboard’s excess accident medical policy. Members must carry proof of primary insurance and such proof must be available at each event so that prompt medical/hospital care can be authorized, if needed. U.S. Ski & Snowboard provides properly registered members with excess accident medical coverage, as follows:

**Excess Accident Medical Insurance for Members**

Current U.S. Ski & Snowboard Members of a U.S. Ski & Snowboard Member Club have excess accident medical coverage during sanctioned or registered events including official training (as defined by the policy) at such events. Please see buckner.com/us-ski-and-snowboard for a detailed description of coverage.

**Excess Accident Medical Insurance for Members of a CLIP Member Club**

Current U.S. Ski & Snowboard Members of a U.S. Ski & Snowboard CLIP Member Club have excess accident medical coverage during skiing and snowboarding competition, while training to compete and conditioning to compete in ski and snowboard competition that is supervised by a U.S. Ski & Snowboard representative and/or representative of a CLIP Member Club, and during club activities that are supervised by a representative of a CLIP Member Club. Please see buckner.com/us-ski-and-snowboard for a detailed description of coverage including a list of activities that are excluded from the policy.

**Liability Insurance Coverage**

U.S. Ski & Snowboard will provide liability coverage for:

- **Event Organizers** with respect to their ordinary negligence if such is alleged to have arisen in connection with competition in or conduct of sanctioned events (meaning a Schedule Agreement has been executed) and/or activities conducted or approved by U.S. Ski & Snowboard (including official training at such event as defined by the policy). Please see buckner.com/us-ski-and-snowboard for a detailed description of coverage.

- **CLIP Member Clubs** and the members and supervisory staff of such clubs and member coaches and officials while acting in their capacity as such on behalf of CLIP Member Clubs. Such coverage applies during (1) ski and snowboard competition; (2) while training to compete and conditioning to compete in ski and snowboard competition that is supervised by a U.S. Ski & Snowboard representative and/or representative of a CLIP Member Club; and (3) during club activities that are supervised by a representative of a CLIP Member Club. Please see buckner.com/us-ski-and-snowboard for a detailed description of coverage, as certain club activities are not automatically covered.

Note: This summary provides a general overview of insurance coverage that applies for U.S. Ski & Snowboard members. It is not a complete explanation of all policy provisions or specifics of the policy benefits. No coverage is extended, and no representations are made, other than what is stated in the actual insurance policies.

CHAPTER 2

POINTS AND RANKINGS
U.S. Ski & Snowboard Competitor members receive national points for each scored competition in which they finish without disqualification. Competitors begin their points profile with 0.00 points and may increase these points to a maximum of 1000.00. Points are used to rank competitors nationally on the National Ranking List.

The list provides competition organizers with the data to establish a start order for competitions. This also allows competitors to compare their performance against the performance of riders in other parts of the country whom they may not compete against.

The Snowboard National Ranking List is available at usskiandsnowboard.org. The Snowboard National Ranking List is based on a “place-points” scale. This simply means that for every scored competition sanctioned through U.S. Ski & Snowboard, points are awarded from 1st place to a maximum of 100th place.

The exact calculation of the points awarded to each finish place is determined by the competition level, and the average points of the best five riders starting the event. Once the competition level and average points have been determined the event is applied to the appropriate points scale (see table 3.1).

**Competition Levels**

**Level 1 Competitions**
- Olympic Winter Games, World Championships, World Cup: the 1000 point scale is used.

**Level 2 Competitions**
- Continental Cups/NorAms (including Revolution Tour, Hole Shot, Race to the Cup), and Grand Prix: the 500 to 200 point scales are used.

**Level 3 Competitions**
- FIS level: the 360 to 50 point scales are used.

**Average Points**

Determining the appropriate points scale for level 2 and 3 competitions are based upon the average points of the competition. Average points are calculated based on the average national points of the best five riders who have started in the competition.

FIS competitions will use the calculated FIS entry point to the scale.

For a competition to be scored to the Snowboard National Ranking List it must have five starters, with or without national points, and three finishers.

Once the average points have been calculated, the appropriate scale is selected from the tables at the end of this chapter. To choose the best possible scale, the average points value without rounding must be equal to or higher than the corresponding entry points.

**How the National Ranking List Works**

In most cases, a competitor’s national points are the average of the points from the best two competition results in the current season, in each discipline (HP, SBX, BA, SS, or Alpine). Alpine points are defined as a result in any of the following sub-disciplines: GS, SL, PSL, and PGS. The period of evaluation is July 1 through June 30.

At the start of the competition season, the points published in the fall snowboard ranking
list are used as a competitor’s national points (or as one of his or her best results) until two results produce average points higher (better) than the fall points. When this happens, fall points are no longer used.

In the case of a new competitor with no fall points, fall points are zero and are used until a single result is achieved. New points are then calculated as the one result - 40%. Once a second result is obtained, the two results are averaged even if the average is less than the single result - 40%.

For example, a new competitor earns a first HP result of 780.00. 780.00 - 40% gives the competitor national points of 468.00. Then, the competitor earns a second result of 150.00. The competitor’s new national points are calculated as: \( (780.00 + 150.00) / 2 = 465.00 \).

If a competitor has fall points, their fall points may be used as one result until the calculation for the last list of the season.

For example, a competitor with 750.00 fall points then achieves his/her first result of 790. Their points for lists 1-3 would then be calculated as: \( (750.00 + 790.00) / 2 = 770.00 \). When a second result is achieved that betters this average, the Fall points are no longer used.

If a competitor has fall points and competes in two or more competitions within a single discipline and the average of these results does not produce points better than their fall points, their fall points will be reduced by a maximum of 20% on the List 6 calculation.

Calculations only occur when a list is published; not between list periods.

**Non-activity**

The formula for determining points with no results is Fall points minus 40%.

For FIS points calculations, see the Rules of the Snowboard FIS Points at fis-ski.com.

**Injury Protection**

If a competitor is injured and out of competition for either the entire season or a portion thereof, he or she may apply for injury protection of their points. Points will still go up, but injury protection limits the amount they will increase.

Applications for injury protection must be submitted by April 15 of the season being requested. Competitors must submit requests using the official national and/or FIS forms and they must include a letter from their physician stating the specifics of the injury, including the actual date of injury, and the approximate time the individual will not be able to compete. Applications should be sent to Elise Saarela elise.saarela@usskiandsnowboard.org.

Applications are only valid for one season; if an athlete is out for more than one season they must reapply.

Athletes must maintain their Snowboard Competitor membership, and FIS registration as applicable, to maintain points.

**Injury Protection**

When a competitor applies for injury protection and the request is granted, his/her National points will degrade by 20% for each season injured. A competitor will be allowed a maximum of three starts during the season to be eligible.

**FIS Injury Protection**

At least 90 days must have passed between the time of the injury and the competitor’s first start. During the valid season, a competitor can have no more than 6 starts while retaining the right to apply for injury status.

If the injury status is approved 10% will be deducted from the competitor’s Base List (BL) points if the current points are not better than the protected points.

See the FIS Snowboard Rules of the Points for more information.

CHAPTER 3
SERIES AND SELECTIONS
U.S. Ski & Snowboard offers competition programs from the domestic level to international events such as the Toyota U.S. Grand Prix and FIS World Cups. This chapter provides general information on U.S. Ski & Snowboard’s major events and series. Where qualifications apply, the entry criteria, field size, and design of the programs have been developed to provide timely opportunities for talented riders to reach their athletic potential in snowboard competition.

## ELIGIBILITY FOR COMPETITION

### U.S. National Level Competitions
- U.S. Ski & Snowboard Competitor membership
- Abide by U.S. Ski & Snowboard Code of Conduct, competition rules and procedures

### All FIS Competitions
- Must meet FIS age requirements
- U.S. Ski & Snowboard Competitor membership
- FIS license (required)
- Abide by U.S. Ski & Snowboard Code of Conduct, competition rules and procedures.

## COMPETITION PIPELINE

Below is an overview of the U.S. Snowboard pipeline. For more information on how to get started visit usskiandsnowboard.org/sport-programs/pipeline/snowboard-pipeline or usasa.org.

## FIS WORLD CUP

The FIS World Cup is a high-level international snowboard series. The eight-month circuit (August-March) crisscrosses the globe, with riders from many nations competing for World Cup titles in PGS, PSL, HP, SBX, Team SBX, SS and BA.

### Qualification
- To be considered eligible for a World Cup event, an athlete needs a minimum number of FIS points. Point requirements and earned quota spot information can be found at fis-ski.com.
- Must hold a current Snowboard Competitor membership and FIS license.

### Entry in Competition

The Amateur Sports Act requires U.S. Ski & Snowboard to objectively administer entries for all international competitions. If an athlete is objectively qualified through ranking, results or trials, he or she must be entered in a qualified international competition, provided he or she meets the international federation’s (FIS) eligibility requirements, holds a membership with U.S. Ski & Snowboard, and agrees to the U.S. Ski & Snowboard Code of Conduct, and the USOPC Code of Conduct.

For proper and effective management by the head coaches of our national program, clear procedures have been established to make entrance into international competitions for all qualified athletes. The following procedure is to be followed for selection, entry and on-site management of all U.S. participants:
- All entries to FIS competitions must be made by U.S. Ski & Snowboard staff.
• Without exception, only those competitors, coaches and staff who agree to abide by the U.S. Ski & Snowboard and USOPC Code of Conduct will be entered and/or receive credentials.
• Only those individuals on the official entry list can be recognized by the competition organizing committee.
• Specific international selection criteria, as approved by the U.S. Ski & Snowboard Board of Directors and published by U.S. Ski & Snowboard, will be strictly followed.
• Additional selection criteria for specific competition start rights, as established in advance by the head coaches, will be available in writing if requested.
• All U.S. competitors must accept and follow the on-site competition plan as established by the team captain. This includes team meetings and training plans. Every effort will be made to accommodate individual competitor’s needs and additional personal coaches if they wish to attend.
• Participating in international competition as a U.S. entered competitor is a privilege and an option, not a right. Funding for national program members is at the discretion of U.S. Ski & Snowboard.

CONTINENTAL CUPS AND OTHER FOREIGN FIS EVENTS

Per the FIS ICR rule 215.3, only National Ski Associations are entitled to make athlete entries for international competitions. Athletes interested in competing in Continental Cup competitions outside the United States must contact Erin McNeely (erin.mcneely@usskiandsnowboard.org) a minimum of 42 days (six weeks) prior to the first scheduled event day to declare their intent to compete – if allocated a quota spot.

Initial Quota Allocation
42 days (six weeks) days prior to the first scheduled event day, athletes will be ordered based on their FIS points from the current points list.
If there are more declared intents than quota spots available, quota spots will be distributed to the highest FIS ranked athletes. All remaining athletes will be placed on an alternate list.

**Alternate List**

If quota spots become available after the Initial Quota Allocation athletes will be reranked on the Alternate List using the current FIS points list the day the spots become available, at which time the top-ranked athletes will be allocated quota spots.

Starts at Continental Cups are not guaranteed until the athlete submits payment to the event organizing committee, per the FIS Continental Cup rulebook, rule NAC 9.3 (Park & Pipe, NAC 11.4 (Snowboard Cross), and NAC 12.2 (PGS/PSL). It is the athlete’s responsibility to ensure payment is made to the event organizing committee.

**FIS WORLD JR. CHAMPIONSHIPS**

The FIS Junior World Championships may be held annually as determined by the FIS. The size of the quota will vary depending upon the event and will be determined by the FIS. These championships provide a unique opportunity for the best junior snowboarders in the world to compete together. The Junior World Championships are important competitions in the development of future World Cup contenders.

**Selection Criteria and Age Eligibility**

Visit usskiandsnowboard.org for the criteria.

---

**THE FUTURES TOUR**

The Futures Tour events are a collaboration between U.S. Ski & Snowboard and USASA. These events are run by USASA and serve as the bridge from USASA regional events to the NorAm and U.S. Revolution Tours.

Events serve as USASA regional qualifiers and follow FIS rules and formats. Athletes will receive USASA age class points but be scored on an open range.

Athletes under the age of 13 are not eligible to compete. Athletes must hold a current Snowboard Competitor membership, FIS license and USASA membership.

These events are FIS sanctioned.

**Schedule**

Visit usskiandsnowboard.org and usasa.org for current schedules and event information.

Each series presents organized competitions in halfpipe, slopestyle, alpine snowboard racing, snowboard cross, and rail jams. At the conclusion of the regional series season, the organization hosts the USASA National Championships at the end of March through early April.
