 - ii. Reviewed petitions. Anyone interested in how those decisions were made can reach out to Mike Page or Matt Gnoza.
 - iii. There was a request to change Aerials scoring format. It was not changed in season and was addressed in the ASC meetings.
 - iv. How was the scoring of Junior Nationals decided as it didn't follow the format in the rule book?
 - 1. With the ceiling and floor, the points were inconsistent among age groups, so it was recommended to be scored as a regional event.

2. Community was under the impression that the executive committee had discussed it.
 3. The points and quota decisions surrounding Junior Nationals should have gone through the executive committee, but there was a push to make decision. The Freestyle Sport Director recognizes it should have gone through the executive committee and apologized that that process was not upheld.
 4. Committee recommended that the decision on how that situation was handled be ratified by the Executive Committee.
 - a. Executive committee will meet about and vote on that decision and report back on July 1.
- c. Are we going to use the event advisory group?
- i. Yes, we would like to build that group out. It got lost in transition with staffing changes in USSS, but USSS will work to get it back up and running.

15. Adjournment

There being no further business, Mike Page moved to adjourn the meeting at 11:53 am.

Addendum 3

2023 FIS Freestyle Review:

Aerials:

Synchro Aerials (AES) was ratified as a World Cup discipline. This now brings WC Aerials to 2 Sub-Events, Aerial Team (AET) and Aerial Synchro. There are no AES WC's scheduled for the next season.

Summer Series - a formal pool event series has been calendared with 3 events:

- Mettmensstetten SUI 20. August 2023
- Park City USA 26. August 2023
- Brisbane AUS 02. September 2023

Judging - The World Cup Aerial community has been unhappy with the outcomes at many of their top tier events and continue to look for ways to improve. The Aerial Advisory Group proposed a panel of judges consisting of only 'recent' ex-Coaches and/or ex-athletes. These people are being identified with a goal that they judge the Summer Series of events. The Race Directors have expressed concerns that this will kill judging at the levels below the World Cup.

Moguls:

Air DD - elimination of the categories of 3o,7o,10o,14o. Off-Axis tricks must have position in order to receive a full score. Confirmation of max score for non-position jump will be finalized in Fall Technical Meeting. Current thoughts are 6.0 max.

DM Seeding - No changes here just some re-wording that everyone should make themselves aware of. Basics are wording follows the process from step one of seeding thru final results. **DM DNS** - Clarification on when a person is a DNS. Previous language defined it as in the first round, so if a person was a bye into the second round they were actually getting a "DNF". This is now clarified as "their" first round.

NorAM CUP:

Quotas Update - It was observed that Quotas are not shared items. The NorAM Working Group and the nations proposed the following quota which was approved:

<u>Nation</u>	<u>Moguls and Dual Moguls</u>	<u>Aerials</u>
CAN	50 - Maximum of 30 per Gender	30
USA	50 - Maximum of 30 per Gender	30
Foreign Nations	30	40
Maximum Field Size	130	100

Minimum FIS Point Requirement for COC Events: It was approved that to enter a NorAM Mogul and Dual Mogul Event that you will need a minimum of 5 FIS points to be able to enter or start. This will be implemented in the 2024/25 season.

World Cup:

Quotas - Adjustment in Quotas, basic a drop by one for those nations that run World Cups, those that do

not lose 2:

3.4.3

Nations Quota Overview

Overview per Event by Number	MO/DM	AE
Maximum Team Size (Women and Men)	<u>10</u> 12	10

Proposal 1

Advisory Group: Athlete Rep

Item:

Rule Number:

Proposal: WFL - World flip League - Ramp & Bag Hometown Competition Series

Reason(s): Increase participation in Freestyle Skiing via water ramp and Air Bag competitions. Grow the number of Aerial competitors and feed the aerial development pipeline. Serve as a gateway for participants to earn an invite to the World Flip League - International Water Ramp Open to be held in August of 2023 at the UOP. This Aerial Development pipeline will provide the opportunity for talent ID and possible qualification

into the US Aerial Selection Event, Aerial Nor Ams, Aerial World Cups and Possibly the Olympics.

New wording of the Rule: Water ramp and air bag competitions are meant to be fun and inclusive. The goal; have every water ramp and airbag facility in the US hold at least one open WFL Qualifier event by July 31, 2023. The format for all WFL Qualifiers is; the competition will be a best 2 out of 3 jumps. This event can be scored in any manner the organizer desires. Repeat jumps are allowed. Each athlete must perform one inverted jump to qualify, (bT, bL, bF, fT).

On Aug 1st, 2023, all organizers will submit the top 5 Men and top 5 women's results and contact information to USSS. These athlete will then receive invites to the World Flip League International Water Ramp Open to be held in late August 2023 at the Utah Olympic Park in Park City, UT. The WFL International will feature the worlds best athletes from the United States, China, Switzerland, Canada, Australia and Ukraine. The WFL Event will use FIS scoring, to rank the athletes in the event. The WFL event will feature multiple training days with the support of US Team Coaches and Athletes. It will start off with a qualification competition for all WFL Hometown Competition Series Athletes. This competition will be the same, best 2 of 3 jump format with one jump being inverted (at the UOP the sky's the limit, one flip, double, triples or quads). The top 5 Males and the top 5 females will then move on to the WFL Finals , to see how they stack up against the World's best.

Prepared by: Troy Murphy, Trace Worthington, Seedog **Date Submitted:** 4/15/23

Notes – ASC – Approved - Organizers are asked to keep a list of who competed and send a list to Jack and USSS – Participants would be invited to the championship event in AUG at the UOP – Organizers can use the skateboard tab in Winfree or use an Excel sheet to rank competitors.

The above needs to be updated with the updated Seedog proposal.

The championship event needs to be run in conjunction with the AE summer event scheduled for 8/26/23

USST will investigate providing awards to the organizers.

Proposal 2

Advisory Group: ASC

Item:Recruiter/promoter

Rule Number:

Proposal: USSS hires a full time, part time employee or college student seeking work experience to go around the country and pull potential athletes to Intro to Aerials / Talent ID camps for various clubs.

Reason:

New wording of the Rule: N/A

Prepared by: Jack Boyczuk

Date Submitted:4/13/23

Notes – ASC – Recommended to the USST to tack under consideration position would align with the GMTM platform.

Proposal 3

Advisory Group: ASC

Item: EADP

Rule Number:

Proposal: Reinstate the Elite Aerial Development Program in Lake Placid

Reason: The strength and core of Aerials is clearly in the East division. EADP was the pinnacle of Aerials development in the world. Bringing this program back would ensure we are the “best in the world” by the time we hopefully host the Olympics again in the US. Athletes from the East coast who already participate in Aerials won’t have to come across the country to do doubles. The cost to move your 16 or 17 year old athlete from the East to Park City is insurmountable, especially when Lake Placid is sitting left alone. With a place to live, eat and train all at the same location the success and results would be exceedingly high as seen by almost every current US Team athlete today.

New wording of the Rule: N/A

Prepared by: Jack Boyczuk

Date Submitted: 4/13/23

Notes – ASC – Moved to a recommendation to USST

Proposal 4

Advisory Group: ASC

Item: Aerials on Mogul course scoring

Rule Number:

Proposal: Add a new scoring tab labeled “Intermountain Aerials Assault” to Winfree

Reason: To ensure there are more Aerials regional competitions this is necessary for clubs without an Aerial site. Allowing Aerials competitions to happen on Mogul courses more clubs would be willing to host events.

New wording of the Rule: Judges judge from straight on position Best of 2 Jumps - Repeats allowed 2 Scoring Judges Athletes must call jump before start Any upright combo can be done Inverts are straight over only. Off-Axis including Loops will be scored as bP Grabs will not count towards Degree of Difficulty Potential Codes - Upright manoeuvres, bP,bT,bF, bP, dF,fT,fP Scoring will use the MO Program of Winfree Athlete Time will be 99.99 Judge 1,2,3 will be .1 Judge 4 and 5 will be score And then add jump code

Prepared by: Jack Boyczuk

Date Submitted: 4/13/23

Notes – ASC – Approved by the ASC to include this option.

Proposal 5

Advisory Group: ASC

Item: Athlete coaches

Rule Number:

Proposal: Require all Aerial National Team athletes to take Freestyle Level 1 Coaching Certification.

Reason: There are 4 people in the country willing and able to shape a double kicker. We need more. With USSS athletes being more engaged in coaching the up and coming athletes, it promotes a positive and exciting atmosphere. Younger athletes get to connect with the team athletes as they become role models.

New wording of the Rule: N/A

Prepared by: Jack Boyczuk

Date Submitted: 4/13/23

Notes – ASC would like to make this recommendation to the USST athletes – Gnoza to offer access to level 100 course to AE team athletes.

Proposal 6

Advisory Group: ASC

Item:

Rule Number:

Proposal: In order to promote the sport of aerial skiing there needs to be support for the grass roots programs.

Reason: The Buffalo Ski Club Freestyle program has built an air bag venue including an in-ground trampoline. venue was built with no outside funding other than the blood sweat and money from the coaches of the freestyle program.

Since Nationals was not held last year, the money that was set aside for National was going to be used to help the grass root programs. The Buffalo Ski Club Freestyle program is asking for \$5,000.00 to improve the training venue we already have.

We will use the money to buy a bungee/belt system to help our athletes get comfortable doing inverts.

Prepared by: Mark DePeters

Date Submitted: 4-13-2023

Notes – ASC – Not Accepted - further discussion needed ASC would like to see any funds available used to promote the sport and not just in support of individual club needs

Proposal 7

Advisory Group: ASC

Item:

Rule Number:

Proposal: Reinstate the 6006 Degree of Difficulty Chart and Multipliers

Reason: The community wants to see the DD in the comp. guide

New wording of the Rule: Replace section 6006

Prepared by:

Date Submitted: 4/11/23

Notes – ASC – Approved

Proposal 8

Advisory Group: ASC

Item:

Rule Number:

Proposal: Edit 6006 Degree of Difficulty Chart and Multipliers

Reason: Some jumps have too high a DD

New wording of the Rule:

6006.1 Uprights – change Neutral to 0.4

6006.2.1 through 6006.2.3 subtract 0.2 from each group to reward Somersault maneuvers.

Prepared by:

Date Submitted: 4/11/23

Notes – ASC – Approved - Neutral would move from .06 to .04 – Reduce all upright, rotational and off axis tricks by 0.2

Proposal 9

Advisory Group: ASC

Item: Aerials at Jr. Nationals

Rule Number:

Proposal: Add Aerials to the same Junior Nationals event as Moguls

Reason: Promote Aerials skiing and promote Aerials training and competition to mogul skiers.

New wording of the Rule: Aerials will be included at Jr. Nationals alongside Moguls and Dual Moguls.

Prepared by: Wes Preston

Date Submitted: 4/15/2023

Notes – ASC – Priority is to ensure that an AE Jr nationals take place – Priority would be for the AE Jr Nationals to take place with MO Jr Nationals. July 1st deadline to try and coincide with MO Jr Nationals – If this can't happen, ASC would like to move forward with the E Jr National Bristol event

Proposal 10

Advisory Group: ASC

Item: Combined Spots at Jr Nationals

Rule Number:

Proposal: Add 2 combined spots to each gender for each age group at Jr Nationals. Combined skiers will be allowed to compete in Aerials, Moguls and Dual Moguls at Jr. Nationals. The criteria for Combined spots at Jr. Nationals could be discussed. A recommendation is that eligible athletes need to be listed on both the Aerials and Single Moguls FSP lists. The place points from Moguls and Aerials on the final points list used for Jr. Nats selection be added together. The combined list would be based on these place points.

Reason: Promote Aerials as a sport and promote Aerials training and competition for mogul skiers.

New wording of the Rule: Two Combined Spots will be allocated for Combined skiers (Moguls and Aerials) at Jr. Nationals. Eligible athletes need to be listed on both the Aerials and Single Moguls FSP lists. The combined list would be based on place points added together from an athlete's standing on the Moguls FSP and the Aerials FSP. The combined spots will be determined using place points from the same lists that are used for Jr. Nationals selection.

Prepared by: Wes Preston

Date Submitted: 4/15/23

Notes – ASC – Approved – Contingent on Jr Nationals MO and AE being together.

Proposal 11

Advisory Group: ASC **Item:** Combined Awards at Jr Nationals **Rule Number:**

Proposal: Award Combined awards at Jr. Nationals: top 3 for each gender in each age group. Combined will be decided using the traditional method (adding the percentage of the top combined skier's score in each event. The top combined skier in each discipline receives 10 points).

Reason: Promote Aerials skiing and promote Aerials training and competition to mogul skiers.

New wording of the Rule: Award Combined awards at Jr. Nationals: top 3 for each gender in each age group. Combined will be decided using the traditional method (adding the percentage of the top combined skier's score in each event. The top combined skier in each discipline receives 10 points).

Notes – ASC – Approved – Contingent on Jr Nationals MO and AE being together.

Proposal 12

Nation: USA

Item: Junior Nationals Aerial Event - Schedule / Criteria

Rule Number: Competition Guide Pages 28 & 29

Proposal: Amend Current Junior Nationals Aerial Scheduling, Location and Criteria

Reason: To make the Junior Aerial Nationals more accessible by any interested athletes, a non conflicting event date and early event site selection must be planned and advertised. Also the event Criteria needs to be amended to open this event up to any interested youth in the US that can perform an inverted maneuver, as well as Identify athletes that are truly interested in inverted aerals

New wording of the Rule: In order to help identify and promote the Aerial Development pipeline, I feel it would be in the sports best interest to identify a site and schedule the 2024 Junior Nationals Aerial event by July 1st, 2023.

As the Eastern Freestyle Division is the only division with multiple clubs still holding Aerial events, It makes good sense to support these clubs and support AE growth in this division. With this in mind, I would propose we schedule the Junior National Aerial Event in the Eastern division for the next 3 years.

To get a better measurement of how many true Aerial athletes we have at this level, as well as invite as many athletes as possible, I would also recommend the following event criteria;

This Junior National Event cannot overlap with any other US Freestyle event (AE or MO). Junior Nationals AE can be connected to another event, but we need to make sure there are no scheduling conflicts. I would propose the window for holding this event of 2/15 - 3/31/24.

Secondly, this events format should be a best 2 out of 3 jumps, combined total of the two best jumps for a score. Repeats should be allowed.

To qualify, one of the athletes jumps **must** be an inverted aerial maneuver. (bT, bL, bF or fT). Any athlete, under the age of 18 is eligible for this event, if they are able to perform any of the above inverted maneuvers. For non - USSS Athletes, a single event USSS license will be offered.

Top 5 of each gender would be invited to Project Gold camps either east or west or both. All athletes that enter this event will be automatically invited to all development camps / events in the future (water ramp comps, etc).

I believe these events will have pretty small participation and will require support from USSS to help cover the build costs. I would estimate build costs for an event like this to be around \$2,500 - \$3,000.

I feel a consistently run Junior National Aerial event, in the division with the most Aerial athletes and a criteria that supports talent ID, will give the Aerial community the best chance for future success.

Prepared by: Seedog

Notes – ASC – Approved – Amended to say that the Priority is to ensure that an AE Jr nationals take place – Priority #1 would be for the AE Jr Nationals to take place with MO Jr Nationals. July 1st deadline to try and

coincide with MO Jr Nationals –

If this can't happen, ASC would like to move forward with the Jr National Bristol event.

Proposal: ~~To align the points system with a performance model that considers USSS events only to formulate the Freestyle Points List.~~

New wording of the Rule:

Moguls, Dual Moguls and Aerials Event Scoring

1. Each mogul and dual mogul event is rated by the quality of competitors entered. Therefore, the point worthiness of each competition will be fixed for the top 3 overall and then vary by performance in relation to the top 3. Meet rating points will be fixed equal to the average of the two highest FFSP among the top four finishing mogul competitors in that event and among the top four finishing dual mogul competitors in that event.

-Aerial events receive do not have event ratings that are equivalent to their final ranking result.

The top 3 winner of the mogul event are awarded freestyle points (FFSP's) as outlined in the table below and depending upon the level of event in attendance equal to the average FFSP of the people who rated the competition. All other competitors in that event are given FFSP's in the same proportion to 3rd place the winner's FFSP's that their score was to the 3rd place winner's score. (Example: 3rd place winner scores a 70 in a regional 700724 point event, 4th place competitor scores 694. The competitor in 4th place will be awarded $(694/70) \times 665724 = 655.50661.94$).

If none of the competitors in an event have any FFSP's in the event, then the minimum event ranking is 100.

- 2. The maximum points for an event in all disciplines is 1000, the minimum point value for an event in all disciplines is 100.
- 3. FIS events will be scored using the FIS event rating.
- 4. Dual mogul events will receive the same fixed points for places 1-3 as moguls, the remaining competitors will receive FFSP's in accordance with the following formula:

$$\text{Counting Competitors (CC)} = \text{Total Final Ranked Competitors (TFR)} - 3$$

$$\text{Place Rank Reduction (PRR)} = 3\text{rd Place FFSP} / \text{CC}$$

4th Place FFSP is 3rd Place FFSP minus PRR, 5th Place FFSP is 4th Place FFSP minus PRR and so on. The Last place Final Ranked Competitor will receive 1 point. with less than 13 competitors will be scored with a special formula determined by the FFSC.

POINTS LIST CALCULATIONS

To be eligible for points, the athlete must have a current freestyle/freeski Competitor membership. Annual membership, including FIS as applicable, must be maintained each year to keep points active.

At the end of each competition period, new points are calculated for each qualified competitor. The calculation considers all eligible events for the entirety of the current competitive season. This will re-index the entire field of qualified competitors for the next competition period.

Points and rankings are only calculated when a list is published; they are not calculated between list periods (see the list schedule earlier in this chapter).

APPROVED by the MSC with the Amendment of eliminating the Q2 from the calculation. Concern over getting a seasons points at one event and the function that maybe someone in Q2 might get more points as somebody that would qualify from Q1.

Proposal 22

Advisory Group: Officials

Item: FIS Representative

Rule Number: NA

Proposal: Eliminate the FIS Representative Position on the Officials Sub Committee

Reason: The FIS Representative position was created when the structure of the R&O Sub Committee changed last year. At that time, the Head Judge Representative was shared by two members. With the new structure, it was decided to create a FIS representative position. Scott Lounsbury was put into the FIS rep position because of his vast experience with FIS, attendance at FIS meetings, and was on FIS committees. With Scott's retirement from judging, I think the FIS position should be eliminated. USSS already sends a representative to the FIS meetings and can support the role.

New wording of the Rule: There is no wording needed.
