These members do not need to complete any requirements to active membership.

These members completed their requirements, and their membership is active.

This member needs to complete SafeSport to activate membership for the season.

Coach certification level (L100+) appears in this column.

# Member Lookup Tool

- May be accessed with/without logging into US Ski & Snowboard.
- For best results, enter either the member's name, partial name, or their member #.

### Member Lookup

Parents, club administrators, and race workers can help to provide a safe environment for our young athletes by ensuring that all those who have regular contact with or are in a position of authority over athletes are current and active members.

Please use U.S. Ski & Snowboard's Member Lookup tool and [U.S. Center for SafeSport's Centralized Disciplinary Database](#) to see if those individuals in a position of authority or in regular contact with athletes in our sports have completed all membership requirements such as background screening and SafeSport training and have valid memberships. Those individuals may include coaches, officials, club volunteer members and adult athlete members of your club.

If the individual is not listed, it is for one of the following reasons:

- The individual is not a current member
- The individual member's background screening has expired or is incomplete
- He/she has failed a background screening
- There is no data available for the individual in question
- The individual has been determined ineligible or suspended from sport through the U.S. Center for SafeSport

These conditions may warrant further inquiry with your club or member in question.

**NOTE:** Ineligible members will be tracked and referenced on the [U.S. Center for SafeSport's Central Disciplinary Database](#), a third party website. The Center's database tracks those who have been sanctioned or determined ineligible from participating from Olympic and Paralympic sport.
